

MonoBehaviour

```
classDiagram
    class MonoBehaviour
    class MoveBackground {
        + velocidade
    }
    MoveBackground --|> MonoBehaviour
```

The diagram shows a class hierarchy. At the top is the 'MonoBehaviour' class, represented by a rectangle with three horizontal compartments. The top compartment contains the class name. Below it are two empty compartments. At the bottom is the 'MoveBackground' class, represented by a rectangle with three horizontal compartments. The top compartment contains the class name, the middle compartment contains the attribute '+ velocidade', and the bottom compartment is empty. A blue arrow with an open triangular head points from the 'MoveBackground' class to the 'MonoBehaviour' class, indicating inheritance.

MoveBackground

+ velocidade
